

## Worksheet 5. Application Summary

This worksheet will be posted on the web to notify the public of requests for critical use exemptions beyond the 2005 phase out for methyl bromide. Therefore, this worksheet cannot be claimed as CBI.

1. Consortium Name:	North American Millers' Association		
2. Location:	Washington, DC		
3. Crop:	Not applicable		
4. Pounds of Methyl Bromide Requested	2005	750,000	lbs.
Volume Treated with 5. Methyl Bromide	2005	600 million cu ft	
6. If methyl bromide is requested for additional years, reason for request:  There are no available alternatives that provide the broad spectrum control of methyl bromide. There are no available alternatives that control all life stages of the target pests like methyl bromide. There are no equal space fumigants, nor likely will be. Of those partial replacements, research must be conducted to determine economic and technical feasibility in each individual milling facility.			
2006	725,000	lbs.	Volume Treated
2007	700,000	lbs.	Volume Treated
			600 million cu ft

Place an "X" in the column(s) labeled "Not Technically Feasible" and/or "Not Economically Feasible" where appropriate. Use the "Reason" column to describe why the potential alternative is not feasible.
